INTRODUCTION

With increasing mobility and distance, people need vehicle aids for their mobility. The increasing number of motor vehicles, the incidence of accidents is very high. Often the handling / first aid given is not in accordance with the principles of the first

aid available. This can worsen the condition of the accident victim himself. Efforts to increase knowledge and skills in handling / first aid in accidents. One such improvement effort is the holding of first aid training in accidents to the general public. To that end, as an effort is to carry

out community service in the form of first aid training in accidents in Youth Organization and Health's Cadre of Rangkah Kidul Village, Sidoarjo.

OBJECTIVES

General Purpose

After the first aid training in accidents can know, understand, and practice properly and correctly about the procedures for first aid in an accident.

Special Purpose

After the first aid training in accidents, it is expected that members of the Youth Organization and the Health's Cadre of Rangkah Kidul Village can:

1. Knowing the things that need to be considered in doing first aid in an accident.
2. Know the steps in providing first aid to a good and correct accident.
3. Apply the first aid procedure to a good and correct accident.

PLAN OF ACTION

Strategy Plan

The strategy plan implemented, including:

1. Coordinate with the village head and the Head of Youth Organization and the Health's Cadre of Rangkah Kidul Village, Sidoarjo District, Sidoarjo Regency to request permission to conduct training.
2. Implementation time contract with Youth Organization and Rangkah Kidul Village Health Cadre.
3. Providing First Aid training in Accidents (P3K) to Youth Organization and Rangkah Kidul Village Cadres.

Implementation

Actions taken in the implementation of these activities, including:

1. Contacted the head of Rangkah Kidul Village, Youth Organization, Health Cadre of Rangkah Kidul Village, Sidoarjo District, Sidoarjo Regency and coordinate the implementation.
2. Prepared the place and media for first aid training in accidents.
