ABSTRACT

The socialization related to the prevention of COVID-19 in the Health Polytechnic of Kerta Cendekia is a form of concern for the academic community of the Health Polytechnic of Kerta Cendekia in dealing with the spread of COVID-19 in the Health Polytechnic of Kerta Cendekia. This activity was carried out on August 20, 2021 at the Health Polytechnic of Kerta Cendekia campus. The implementation was attended by 90% of the Health Polytechnic of Kerta Cendekia academic community. This is because the Health Polytechnic of Kerta Cendekia academic community did not attend this event due to illness and was on guard at the Security Post to maintain security. The process of implementing this socialization activity was carried out for 3 weeks, starting from the coordination process of community service implementers, preparation, up to the evaluation of the implementation of the socialization activities. The activity went smoothly and the Health Polytechnic of Kerta Cendekia academics were very enthusiastic in participating in the implementation of this socialization activity. The entire Health Polytechnic of Kerta Cendekia academic community who participated in this socialization have been able to understand the implementation of the COVID-19 response and will carry out the implementation of the COVID-19 response in the Health Polytechnic of Kerta Cendekia and wherever they are.

INTRODUCTION

Corona Virus or Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-Cov-2) is a virus that causes respiratory tract infections. The disease can be spread between people through respiratory droplets from coughs and sneezes. The virus can survive up to three days in plastic and stainless steel can survive up to three days or in aerosol for three hours. This virus can be transferred through the media of hands, clothes or others due to droplets coughing/ sneezing.

In early March 2020 President Joko Widodo announced that in Indonesia the first case of COVID-19 appeared. Meanwhile, in April 2020, East Java became one of the provinces with the highest positive cases of COVID-19 but it had subsided. Over time this virus began to develop and form new variants. And in July 2021 COVID-19 cases jumped again. So that in the prevention process, the Indonesian Minister of Health applies 3M to 5M.

In realizing the awareness of the entire academic community, the ranks of the Health Polytechnic of Kerta Cendekia held a Socialization of Covid-19 Virus Management event where this event aimed to provide information to the entire academic community to be more alert and more careful about this virus. And understand more about the 5M health protocol.

OBJECTIVES

General Purpose

This socialization activity aimed to increase awareness of the Health Polytechnic of Kerta Cendekia academic community regarding the COVID-19 incident so as to reduce the spread of COVID-19.

Special Purpose

After the implementation of the socialization of the COVID-19 response, it is hoped that the entire Health Polytechnic of Kerta Cendekia academic community will be able to:

1. Know general information related to COVID-19.
2. Understand the process of spreading COVID-19.
3. Understand the procedures for preventing COVID-19.
4. Know the management process when infected with COVID-19.

PLAN OF ACTION

Strategy Plan

Prior to the implementation of the socialization activities, the community service implementers held a coordination meeting for the implementation of this socialization activity. After the agreed time and implementation system, the community service implementers coordinate with the entire academic community of Health Polytechnic of Kerta Cendekia regarding the implementation of the socialization. After coordinating, the community service implementers made preparations, starting from the infrastructure to the socialization materials.

Implementation

In its implementation, the implementers of this socialization activity coordinate the implementation of the socialization activities, prepare the necessary infrastructure to carry out the socialization activities, and carry out the activities according to the planned time.

Setting

This COVID-19 response socialization activity was carried out on August 20, 2021

in the Health Polytechnic of Kerta Cendekia Campus Hall.

Target

The target population of the implementation of this COVID-19 response socialization activity is the entire 26 people of the Health Polytechnic of Kerta Cendekia academic community, consisting of 10 lecturers, 7 administrative staff and the rest as security officers, drivers, and cleaners.

RESULTS AND DISCUSSION

The socialization activity for the prevention of COVID-19 in the Health Polytechnic of Kerta Cendekia has been carried out on August 20, 2021, starting at 08.00 WIB until 10.30 WIB.

Figure 1. Presentation of Material on the Importance of COVID-19 Prevention in the Socialization of COVID-19 Response.

The implementation went smoothly and orderly. The implementation of this activity also had no problems, only 90% of the Health Polytechnic of Kerta Cendekia academic community attended. This is due to the Health Polytechnic of Kerta Cendekia academic community who was sick at the time of the socialization activity and also 1 security guard who was on guard at the security post. The entire Health Polytechnic of Kerta Cendekia academic community who attended seemed enthusiastic in participating in the

socialization activity because they felt that this socialization was very beneficial for them, especially in terms of tackling the COVID-19 incident. The entire academic community of Health Polytechnic of Kerta Cendekia has understood the information that has been conveyed related to the handling of COVID-19 during the implementation of this outreach activity.

CONCLUSION

The entire academic community of Health Polytechnic of Kerta Cendekia has understood information related to COVID-19 and the procedures for dealing with COVID-19. In addition, the academics of the Health Polytechnic of Kerta Cendekia are willing to implement every health protocol to prevent the occurrence of COVID-19 in the Health Polytechnic of Kerta Cendekia.
